Hygiene optimised Design

The MEDARIS MTX-10 ist easy to clean because of the full flat Front Design. And it is usable with Gloves which also reduces the risk of a distribution of Germs and Virus.

Introducing MEDARIS MTX-10, Werth Systems powerful new addition to the field monitor range. Featuring multitouch capacitive menu functionality and a crystal clear IPS panel, things seem even better for the user with an eye for quality.

The Touchscreen uses the same technology used in high end smart phones and the IPS screen panel is the latest in the range of high resolution LCD technology to give you more detail on the screen. In addition to the Top Level Image Quality, the MTX-10 also has a build in Speaker System.
