WERTH
G2 CART

DESIGNED FOR EMERGENCY ROOM TREATMENT AND SURGERY

G2 Cart is designed for critical treatment areas and operating rooms. a power failure may result in life-threatening situations for patients. These facilities are critical to both nurses and patients. High hygienic standard and ergonomics are important factors in addition to electrical safety.

WERTH
G2 CART

Werth G2 cart can be equipped with one to two displays, a fully featured touch screen or without a display. The cart is also equipped with a medical power outlet that prevents accidental detachment of other equipment cords. The cart is designed in accordance with the EN60601-1 and EN60601-1-2 standards.

The powerful Medical-PC can run many programs smoothly at the same time.
