WERTH NURSE CART

ALL-IN-ONE TOOL FOR NURSES DAILY TASKS

The Nurse cart has a very hygienic Panel-PC. WLAN antenna is high quality, so that access to networks are maintained under all circumstances.

WERTH NURSE CART

Nurses and practical nurses do a lot of documentation in their work. The paperless office is often only partially in use. There is often a queue to use the office machines and the office facilities are cramped. Werth nurse cart is the solution to this problem. A mobile workstation, that can be transported to the patient area. Medical Panel-PC has a small battery, which lasts about 45 minutes to a hour. You can move the cart to the desired location and set up an ergonomic workstation for yourself.

With the Nurse cart, there is also no more need for separate computers in the storage area. Orders are made 1 to 2 times a week, and the computer usage time in the storage area may be about 2 hours a week in total. The use of the nurse cart replace the high-priced computers that are in little use.
